Description:

Complex pharmacologic information is simple to learn with this complete study resource! Designed to accompany Lehne's *Pharmacology for Nursing Care, 9th Edition*, this robust workbook features critical thinking study questions, case studies, and patient teaching scenarios that help you connect

pharmacology concepts with their impact on patient care. Plus, an emphasis on priority nursing care with NCLEX examination-style review questions prepares you for success on the exam.

- NCLEX Examination-style questions are included in each chapter.
 - NEW! NCLEX-style alternate format questions including prioritization questions, bolster your readiness for the NCLEX Exam while supporting review of core pharmacology content
 - **NEW! Increased emphasis on patient safety** features questions on safe patient care that challenge you to select appropriate actions to prevent or remediate medication errors.
 - **NEW! Detailed rationales for all prioritization questions** are included in the answer key and encompass explanations for both correct and incorrect responses.
